Burn Kits

Item No. : MFAK05.01
Product Name: **Burn Jel Squeeze Bottle (50ml)**
Product Code: BJ 50

Features

Unlike petroleum-based products, which can trap heat in the skin, Water-Jel Burn Jel EU actually draws the heat out of the burn and begins dissipating it on contact. Based on the same water-based gel technology used in our Fire Blankets and Burn Dressings, Burn Jel EU offers fast, cooling relief from the pain of minor burns. Available in unit-dose packs, squeeze bottles and a pump dispenser.

Benefits

Water-Jel Burn Dressings stop the burning process, reduce burn progression, cool the skin, protect against airborne contamination, and help relieve pain all in one simple step, with no special training and no pre-cooling required

Burn Kits

A unique solution in the treatment of burns. This leading burn treatment relieves, soothes and cleans in seconds.

Designed for use in commercial kitchens, industrial first aid rooms, and high risk industrial sites (e.g. foundries).

Burn Kits

Item No. : MFAK05.02
Product Name: **Burn Wrap (Canister)**
Product Code: 3630

Features

Our Water-Jel Fire Blankets are composed of a 100% worsted-wool carrier with an intercellular weaver capable of absorbing up to 13x its own weight. The wool is soaked in a water-based, water-soluble gel that is bacteriostatic and biodegradable. The Water-Jel Fire Blankets are available in three sizes and are packaged in high-visibility, orange, wall-mountable canisters or pouches.

Benefits

Water-Jel Fire Blankets offer one of the quickest, easiest and most direct methods of administering emergency first aid burn care. When placed on a victim, our gel-soaked blankets cool the skin, protect against airborne contamination, and help relieve pain all in one simple step, with no special training required. They can also be used to extinguish flames on a victim and smother small fires.

Blanket Dimensions/Unit: 3' x 2.5' (91.4 x 76.2 cm)

Burn Kits

Item No. : MFAK05.03

Product : Water-Jel Burn Wrap Pouch 3' x 2.5'

Dimension: 3' x 2.5' (91x 76cm)

Features

Designed for use in commercial kitchens, industrial first aid rooms, and high risk industrial sites (e.g. foundries).

Benefits

The smallest and most versatile of the fire blankets. Can be used to extinguish flames and smoldering clothes or dangerous white phosphorous. Ideal for covering torso, leg or entire back injuries. Conveniently packaged in a flat, durable foil pouch for use in first aid kits, EMS jump bags and medical clinics. Directions for use clearly defined on pouch.

Shelf life: 5 years from date of manufacture.

Burn Kits

Burn Kits

Item No. : MFAK05.04

Product : Water Jel Burn Dressing s

Dimension: Unit Dimensions: 2in. x 6in. (5.0 x 15.2 cm)

Sterile Burn Dressings

Gel-soaked Burn Dressings cool the burn, relieve the pain and protect against airborne contamination. Used by EMS professionals worldwide.

- Perfect to add to any first aid kit, cabinet, or EMS kit.
- Consists of a medical grade non-woven pad, in a water-based, water-soluble gel.

CPR KIT FIRST AID TRAINING

Family & Friends® CPR Anytime

- Teaches core skills of CPR
- Designed for anyone who wants to learn CPR but does not need a course completion card
- Self-directed learning program that makes it easy to learn CPR techniques at home
- Course length: About 22 minutes
- Manikin not sold separately

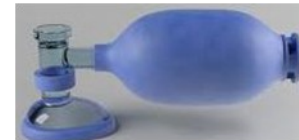

Kit Includes :

- Mini Anne TM CPR Learning Manikin
- CPR Skills Practice DVD
- Adult CPR & AED Reminder Card
- Choking & Child CPR Reminder Card
- Mini Anne TM Spare Lung
- Manikin Wipes (2)

The Little Anne® CPR training manikin has been recently enhanced to provide more realistic adult CPR training without compromising quality or usability. It is durable and designed for convenience making hands-on practice possible for every student.

CPR MASK

AMBU BAG: Ambu Bag: A hand-held device used to provide positive pressure ventilation to a patient who is not breathing or who is breathing inadequately.

Automated External Defibrillator (AED) Training Device

The convenient handheld remote control for instructor use is preprogrammed and offers a manual scenario function, plus "Attach Pads," "Low Battery," and "Call for Service" simulations. The Training Unit is powered by six C cell batteries or an AC adapter. Supplied with Training Electrode Kit, Training Remote Control, AC Adapter, Hand-Held Cord, Operator Manual, Administration Guide, and one (1) year limited warranty.

Work Place First Aid Compliance

First Aid Rooms

A first aid room is recommended for:

- Low risk workplaces with 200 workers or more
- High risk workplaces with 100 workers or more

First Aiders:

A person conducting a business or undertaking must ensure that an adequate number of workers are trained to administer first aid at the workplace.

Number of Trained First Aiders :

Low risk workplaces— 1 : 50 workers

High risk workplaces— 1 : 25 workers

Additional Training for First Aiders

- First aiders should
- Attend training on a regular basis
- Annually undertake refresher training in CPR
- First aid qualifications should be renewed every three years.

Need First Aid Training?

From small offices to large corporations, we tailor training services to suit your needs. For Details contact:
