- Homeland defense

Product Use

The **Evac Body Splint** can be used either vertically or horizontally.

It is flexible when laid flat but becomes rigid when wrapped around the casualty.

Supplied with a storage bag .

Features & Benefits

Feature

Fitted with foot supports, it can be lifted vertically. Can be stored in a compact bag and is easy to transport.

Benefit

Lightweight body splint ideal for confined space evacuation. Once wrapped around a casualty, it provides a rigid splint. Padded shoulder straps provide extra support and protection for the casualty.
