Mass Casualty Kit Content

FFD: A **field dressing** or **battle dressing** is a kind of bandage intended to be carried by Persons for immediate use in case of wounds. It consists of a large pad of absorbent cloth, attached to the middle of a strip of thin fabric used to bind the pad in place

Eye wash - quick method to rinse hazardous material from eyes. Even in non-emergency situations, rinsing your eyes with water can help soothe worn-out, tired eyes by increasing moisture and circulation

Splints - Splint paddings provide firm support to splints without bottoming out. They have a smooth texture that allows for easy placement on all material while efficiently absorbing pressure and cushioning impact. Splint paddings are made with conformable fabric and have hypoallergenic, skin-friendly adhesive backing

Gloves - Gloves provide a protective barrier against germs. When staff wear gloves correctly, they protect both themselves and the injured person

Thermal Blanket/ Rescue sheet - First Aid-Emergencies - Protection. Adverse Weather - Keeps Body Warm. Retains body heat and reflects heat back to body. Windproof, Waterproof, Strong, Compact & Soil

Scissors - usually used for cutting.

Emergency Bandage 4" - Emergency / Compression Bandage Hemorrhage Control Bandage (Shelf life 5 years). This internationally patented and FDA approved bandage is the ideal solution for emergency treatment
